Candidates' Forum Program September 18, 2007

Greetings: Blacksburg Mayor, Ron Rordam

Introduction of Moderator: Jim Gaines

Forum: Moderator Jean Jadhon will present the forum guidelines and oversee the forum.

Candidates:

Senator John Edwards, Senatorial District 21, unopposed

Delegate Dave Nutter, House District 7,

Ralph Smith, Senatorial District 22

Mike Breiner, Senatorial District 22

Ms. Peggy Frank, House District 7

Delegate Jim Shuler, House District 12, unopposed

Closing remarks: Jim Gaines, President

These two questions were sent to candidates in advance.

1. Virginia ranks seventh among the states in per-capita personal income, yet ranks 42nd in state spending for education and 48th in Medicaid payments.* This pattern of low financial support continues in other areas ranging from social services to transportation.

Virginia state taxes rank low compared with most other states, and unfunded mandates dump a heavy burden on local governments and the property tax. Looking ahead, Medicaid costs will soar for the state as the boomers begin to retire by 2011. In addition, budget projections for next year are worsening, with reduced state revenues of \$1.2 billion projected for the next two-year budget cycle**

How should Virginia state government cope with looming financial problems in Medicaid as well as in areas such as education, social services and transportation? (Two minutes allowed for a response.)

2. According to *The Roanoke Times****, 96,831 people were so trapped by payday loans that they took out more than 13 loans each with annual percentage rates reaching 782 percent.* Last spring, the General Assembly would not even accept a 72% cap on such loans, while many other states have capped, or eliminated, payday lending. Governor Kaine wants the General Assembly to revisit this issue in 2008.

What is your position on payday lending? (One minute allowed for a response.)

A teacher took over a new class.
"What's your name?" she asked one little boy.

"Jule," he replied.
"Not Jule," she said. "You shouldn't use contractions. Your name is Julius."
"What's your name?" she asked the next boy.
"Billious," he replied.

Predatory Lending —

A Hot Issue for 2008 General Assembly!

A key issue that will be back before the 2008 General Assembly is to place a cap on the interest rate that payday lenders charge to borrowers. Such legislation failed in 2007, but is still very alive.

A person may borrow \$500 for two weeks, paying a fee of \$75 that leaves \$425. Many borrowers that can't pay the first loan end up in a debt trap that results in their sinking deeper and deeper into debt with an annual percentage interest charge of 390 percent.

Most of the states surrounding Virginia have capped payday interest rates at 36%, including Maryland, West Virginia, and North Carolina. The District of Columbia is expected to join suit in the near future.

Answering the cry of where do people go for such a loan, a 2007 North Carolina study reports that "two-thirds of people who had been payday loan borrowers say that the absence of payday lending has had no effect on them at all. Of the one-third that remains, a 3-to-1 margin says that payday lending is a bad thing, as opposed to a good thing."

Virginia AARP along with many other social justice and consumer groups are urging Virginia legislators to cap payday lending. Unfortunately, the payday-lending industry is spending millions of dollars in Virginia lobbying to prevent a 36% cap. One way to overcome this powerful lobby is for the public to let their Delegate and Senator in the General Assembly know their views. All candidates at the September 18 forum will be asked their position on this issue.

How We Got Our Teeth

An Indian legend told by a child in the Stewart School, Carson, Nevada, 1935

People were coming to earth, and when the animals heard about it they were getting excited. They decided to have a meeting and discuss what the people would be like. Each two different animals were supposed to argue or have a sort of match together, then the one who won would have the pride of having the people have something like them.

It happened that the coyote and the snake were matched to see whether or not people would have teeth. Of course, each one wanted to win. They started to argue and then to fight. It finally ended when the coyote bit the snake while he was not on his watch. This killed the snake instantly.

The coyote was the winner, so that's why people have teeth and not fangs like the snake.
